MANAGUA, NICARAGUA, March 25.

—A few details of the capture of the Honduran-Salvadorean position at Cholutece by the Nicaraguan forces have been received. The Nicaraguans captured 1,500 rifles, a large amount of ammunition and quantities of field equipment. The Hondurans and Salvadoreans had 200 men killed and about an equal number wounded.

Some of the Nicaraguan wounded who were captured by the enemy before President Bonilla fled are reported to have been hanged and their bodies barbarously mutilated.

President Zelaya has issued orders to the Nicaraguan forces that all wounded prisoners are to be treated with proper care.

Awful Outrages.

PUERTO CORTEZ, HONDURAS,
March 21—via New Orleans, March 25.

—News of the sacking of San Marcos,
Honduras, under pitiful circumstances,
an account of a fresh revolt in the
interior of Honduras, and information
of considerable financial losses to
American interests because of the war,
has been received here.

The sacking of San Marcos was related by General Carcamo, of the Honduran army, whom Nicaraguan dispatches said had been kfiled at San
Marcos on February 26th. General
Carcamo was concealed for several
days after his defeat at San Marcos,
and finally gained the Honduran lines,
He then told of outrages perpetrated

The revolt reported here occurred at Camaygua, Honduras, where yesterday, March 20th, 1,500 men captured the plaza. A force of 600 men was sent from San Pedro to suppress this revolt, and orders were given for a body of Indian allies to join the six hundred on the way to Camaygua.

The principal losses Americans have incurred are in the Panama industry. The reports of the Honduras Interoceanic Railroad, which transports the greater part of Honduras's banana output from the interior to seaboard, say that the shipments of bananas has already fallen off to about one-quarter its usual volume.

The American gunboat Marietta is said to have done good work in the interest of American shipping at Tru-jillo, the first Honduran port captured by Nicaraguans,

Upon arrival here on March 19th, the Marietta reported that the Nicaraguans made an attempt to molest small vessels at Truillo, which were the property of Americans, but that they desisted on receiving a warning from Captain Fullam of the Marietta.

A column of Honduran soldlers, under General Chomorro, has slipped past the Nicaraguan lines, and is marching into the interior of Nicaragua, raising a revolt against Zelaya. An official report reaches here that on March 11th, this column captured Totomalpa, Nicaragua.

### War Is Over.

War Is Over.

The capture of Tegucigalpa, stearagua. War Is Over.

The capture of Tegucigalpa, the capital of Honduras, by the Nicaraguans, coupled with the recent defeat of the forces of Honduras and Salvador at Cholucteca and the flight of President Bonilla, of Honduras, puts an end to the latest Central American war. It is now probably that Nicaragua will install another President at Tegucigalpa in lieu of President Bonilla, and then withdraw her troops to her own territory.

Honduras has been helped in this war by Salvador, with whom she had an offensive and defensive aliance, but she has had to contend with a rebellious outbreak of her own people. This was also the case in Nicaragua, the latest revolutionists in each country seemingly taking the advantages of the difficulties of the government to further their own cause. Only three Central American States have been involved, Costa Rica and Guatemala remaining neutral.

LONDON, March 25 .- That the Roumanian government considers the recent riots at Moldavia and Wallachia to be a result of similar disturbances in the adjacent provinces of Russia and not of an anti-Jewish character is evident from a communication made to the Associated Press by Premier Cantacuzenene and telegraphed by him from Bucharest to London. The premier says:

"The grave troubles which have broken out in Roumania do not arise from any anti-Semitic feeling. They are of a well-defined agrarian character. The peasants are not only devastating the houses and farms of Jewish farmers, but also those of Roumanian land proprietors. It is undeniable that these sad occurrences are in part a result of the agitation now prevalent in Russia, especially in Bessarabla, which borders on Roumania.

"The Roumanian government is taking energetic measures to restore order, and it hopes that by active military intervention the rioting quickly will be suppressed, Quickly thereafter the government will introduce a series of measures providing for the necessary agrarian reforms.

BUCHAREST, ROUMANIA, March 25,
—The situation arising from the agrarian revolt has become so serious that the
Roumanian Parliament is considering
the advisability of investing the government with extraordinary powers.

The minister of war, General Mano,
has ordered the mobil sation of four additional regiments at Jassy, where 12,000
troops already have been concentrated.
At Jassy the artiliery is encamped on
the principal street. All the shipps in
town are closed. It is reported that a
very large number of peasants, estimated
at from 40,000 to 50,000 are ready to adyance and attack the place. Copies of a
manifesto were distributed in Jassy yesterday, accusing the government of responsibility for the recent disorders, and
advising the people to take the law into
their own hands. The author of this
manifesto, the procurator of Vasiui, has
been dismissed from office.

### Twenty-Five Peasants Killed.

A bloody encounter between peas-ants and military is reported from Galatz, where on Sunday the troops fired on a gathering of peasants, killfired on a gathering of peasants, killing twenty-five.

From Vasiul, it is reported that organized bands of robbers are marauding the district. The leaders of these bands have assumed the title of "general," and contributions are being levied from all villages and farms.

The plundering continues on a large scale in the districts of Roman, Putna, Jassy and Botosahni. The peasants are setting fire to everything within reach, but they flee on the appearance of the soldiery.

There have bee nseveral serious con-

reach, but they flee on the appearance of the soldiery.

There have bee nseveral serious consists between peasants and troops, so notably at Bacess, in the district of Vasui, where 2,000 peasants, armed with rifles and revolvers, attacked a company of soldiers.

The troops fired several volleys, killing forty peasants and wounding large numbers, but the soldiers were so greatly outnumbered that they finally were obliged to retreat.

At the village of Teleorman, in the Alexandria district, Wallachia, peasants sacked the synagogue and burned forty houses. The rioters also demolished and completely pillaged Zimnicea, another village in the Alexandria district.

The army reserve men are fraternizing with the marauders and participating in the work of plunder.

The total number of troops now in Modavia is 32,510, but large reinforcements are still required.

NEW YORK, March 25,-To-day's slock market defies any clear analysis. The surface facts, upon which there is no room for dispute, are that there of demand. The consequences to prices were such as might be imagined. That, any urgent necessity was forcing holders of securities to part with them did not appear from any facts known to the public. The banks were not calling loans, and the withdrawal of credits by money londers could not be ascribed as the impelling cause of the slump. Of course, the violent decline and the shrinkage in collateral caused a readjustment constantly of loans, and this shrinkage, of couse, forced vulnerable holdings upon the market in the course of the fall. But stringency of money was not the primary cause in forcing any liquidation.

So far as the dread of failures at the coming stock market settlements in London and Berlin was concerned the situation was admittedly improved over last week.

Foreign Prices Higher.

Early prices of Americans reported from London showed some violent rebounds from Saturday's closing level here, and Berlin was reported to be buying American securities in London Bassuring advices from the highest quarters in the financial world abroad were received as to the improvement in the stuation. Berlin was atleged to have completed necessary arrangements for the April ist settlements, which has been the danger alleged to have completed necessary arrangements for the April 1st settlements, which has been the danger point dreaded. Rumors of an important house in London in financial difficulties were said to be disproved by the most careful investigation. Large orders were executed in this market to buy stocks for foreign account, but with hardly more than a momentary effect on prices. One particular in which London did offer an acutely depressing factor was in the disorder in her metal markets.

Copper and tin both showed heavy declines and speculative commitments in tile copper market were said to be involved. The large speculation in copper securities in the market has been based on the confident assumption of sound conditions in the metal market. This confidence was shaken and the metal industrials proved extremely vulnerable as a consequence, including the United States Steel stocks. Large holdings of these securities were believed to be touched by the demoratized declines.

The committee 'recommended to the Council an ordinance creating the offices of medical inspector, registrar of vital statistics and stenographer, at salaries of \$1,500, \$1,200 and \$600, respectively, in connection with the City Health Department. Though the figure was not given out, it is understood that the allowance amounts to more than \$300 per year. The clerk is paid by the fees of the office, and as the jurisdiction of the court is limited and litigation has fallen off greatly in recent years, these fees hardly afford a support.
